

## St. John's People Pray For Welfare Of Their Country

**Distinguished Clergy Participate In Forty  
Hours Devotion At St. John's Catholic Church**

On Sunday morning at high mass the "forty hours devotion" in honor of Jesus Christ, present in the "Blessed Eucharist," was opened in St. John's R.C. church. This devotion is so-called because the "Blessed Eucharist" is solemnly exposed on the altar for three days or 40 hours for public adoration.

The members of the congregation were present at mass each morning and at evening devotions. Rev. W. J. Dwyer, Ph. D., a member of the Pontifical Institute of Medieval Studies, preached Sunday evening.

Rev. Daniel Dillon, C.S.B., of St. Mary's Seminary, Toronto, was the preacher on Monday evening. Rev. Melville Bolan, chaplain at DeLaSalle College,

Aurora, preached at the closing exercises on Tuesday evening. Rev. Dr. Muckle, pastor, gave benediction.

At the 8.30 mass on Sunday morning Rev. Dr. Muckle preached on the duty of all loyal citizens towards their country in this time of crisis. He exhorted the members of the congregation to reconsecrate themselves to the service of their country and, with their right hands raised, they pronounced the words of the reconsecration pledge.

They also offered up their prayers and holy communion at mass for the welfare of their country. Reconsecration prayers were offered again on each of the three evenings of the Forty Hours Devotion.

## Strand Aids Victory Effort, Ask For Aluminum Tickets

**ADMISSION TO MORNING  
SHOW WILL BE SCRAP  
ALUMINUM**

In spite of the recent campaign to collect aluminum scrap for war work there is still a serious shortage. Newmarket held a drive for scrap on Sept. 5 and 6 and now the Red Cross society is sponsoring a further campaign in co-operation with the Strand theatre.

As a patriotic gesture the Strand theatre is putting on a special morning show this Saturday morning at 10 o'clock, when admission will be a piece of scrap aluminum. The show will be put on entirely at the theatre's

## COUNCIL CHECKS UP ON FRUIT MERCHANT

"There have been a lot of complaints about Caradonna, the fruit merchant, cluttering up the sidewalk," Councilor Wm. Dixon, chairman of the police committee, told the town council on Monday evening and asked for instructions.

"He even takes up the gutter and has his truck there on the street to sell from besides," said Mr. Dixon. "What can be done?"

"There is no trouble about stopping him," said N. L. Mathews, K.C., town clerk and solicitor. "The trouble is that other merchants also use the sidewalk. You can't make fish of one and fowl of others. He will come back and say that he will get off the sidewalk if others do."

"But he is the most aggravating," said Deputy-Reeve Joseph Vale.

"There was hardly a foot of sidewalk left on Saturday night," said Mr. Dixon.

Mr. Mathews agreed to advise Mr. Caradonna by letter that he must keep his merchandise off the sidewalk.

## Citizen Chases Tire Thieves After Break-In

Ackroyd's service station at Main and Huron Sts. was broken into early Sunday morning and six tires valued at \$48 were stolen.

Chas. Rowntree, who lives across from the service station, saw a car pull up in front and then heard a pane of glass smash. He rushed to his own car and chased the other car down Main St. and got the license number. But the car outdistanced him. Mr. Rowntree informed Constable Kenneth Mount.

The car, which had been stolen from the Royal York Hotel, Toronto, was found in the city.

## ENJOY FISHING TRIP

J. O. Little, ex-warden of York county, and Mayor Dr. L. W. Dales were guests this week of York county's road commissioners, Ray Price and Ellerby Farr, both of Weston, at a fishing party at Kawartha Park. Dr. Dales returned Wednesday, after landing a nice "lunge" that morning.

## MOVES BUSINESS PREMISES

Norman Pearson, Massey-Harris dealer, has moved into the premises on Main St. which used to be occupied by Munshaw Motors.

## NO LEASE FOR CAMP SIGNED, NO RENT YET

**REMIIND TOWN SITE MUST  
BE RESTORED TO ORI-  
GINAL CONDITION**

**OTTAWA IS FIRM**

No rent has yet been paid for the Stickwood farm on which the military camp is situated, K. M. R. Silver, Newmarket solicitor, stated in a letter considered by the town council on Monday evening.

Mr. Silver said that the verbal agreement called for a rent of \$30 an acre for the 18 acres used by the camp, or \$540 a year. The government was to pay \$300 and the town was to make up the balance. The farm was to be put back in its original condition when the government was through with it, said the letter.

"We have been putting it off in the hope that the government would pay the full amount," said Deputy-Reeve Joseph Vale. "But the real estate adviser to the government says no. The question is whether we are going to lease the farm from Stickwoods and re-lease it to the government, or let them rent it direct."

"It seems like a high rent," commented N. L. Mathews, K.C., clerk and solicitor.

"It seems high, but they were before and they can't do it now," said Mr. Vale.

"It was a wonderful farm," commented Councilor Wm. Dixon.

"Restoring the farm to its original condition will be quite a job," said Deputy-Reeve Joseph Vale.

"In view of the immensity of the job of putting the Stickwood farm back in its original condition it would be better to have an agreement direct between the Stickwoods and the government," said Reeve Fred A. Lundy.

"The agreement is badly messed up," said Mayor Dr. L. W. Dales. "They say in their letter that they made the agreement with the town."

"That is not correct," said Mr. Mathews. "We just agreed to make up the difference."

"We have no other responsibility," asked Dr. Dales.

"That's right," said Mr. Mathews.

"Stickwoods certainly aren't getting fat on it, considering that they haven't had any money so far," said Councilor J. L. Spillette.

## MAIN ST. WIDENING TURNED DOWN AGAIN

"Someone is going to be killed," warned Mayor Dr. L. W. Dales, asking for the widening of that block on Main St., at a town council meeting on Monday evening.

"The money was voted," said Dr. Dales. "I understand that the delay is just because the two committees can't get together about the lighting."

"Why can't the lighting be done like it is at Orillia?" asked N. L. Mathews, K.C., clerk and solicitor. "It has proved very satisfactory there."

"It looks very nice there," said Councilor A. V. Higginson.

"If you put the lights on buildings you are wasting light," said Councilor A. D. Evans, chairman of the water and light committee. "Mr. Raehar thought that the buildings wouldn't stand the 14-foot brackets that would be necessary to bring the lights out."

"We were going to use standards, but they have gone up 20 percent since the war started. Do you want a patch job or do you want to wait and do it right? Will that little strip of 18 inches off the sidewalk be worthwhile?"

"You can't make up your minds," said Dr. Dales. "This street is a disgrace."

"I think the standards would make a nicer job," said Councilor J. L. Spillette, a member of the water and light committee.

"But they would cost too much," said Dr. Dales.

Councilor Frank Bowser, chairman of the road and bridge committee, said that he thought a very simple bracket could be used to hold the lights.

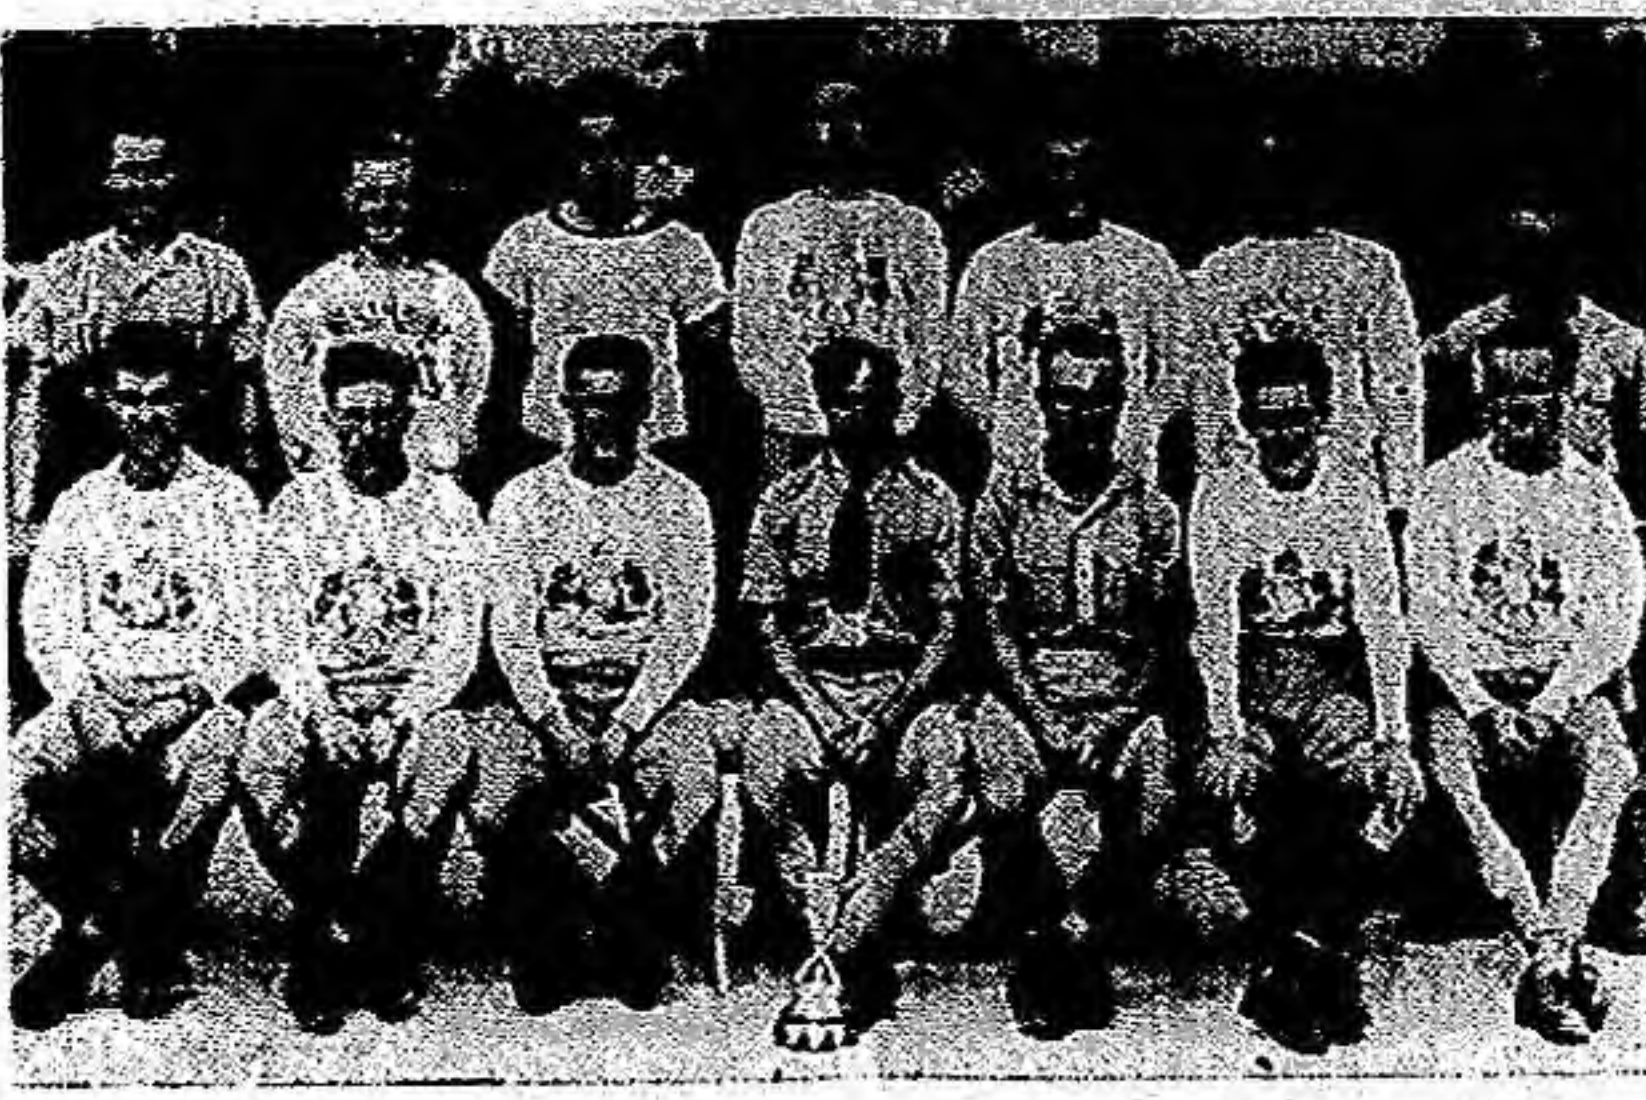

"As one member of the committee I am opposed to spending money this year or next for this purpose," said Deputy-Reeve Joseph Vale.

"I'm opposed to this expenditure in war-time," said Councilor Wm. Dixon.

Dr. Dales said that there had also been money provided in the budget for renovating the clerk's office, but that no action had yet been taken.

## Would Turn Clouds Inside Out And Keep Boys Home

**COUNCIL DISCUSS WITH  
MAJOR GEARY CLUB  
FOR SOLDIERS**

As a counter-attraction for the bright lights of Toronto, a downtown club for soldiers from the military camp was suggested by Major B. H. Geary, V.C., second-in-command at the camp, to the town council on Monday evening.

Councilor Arthur Evans, who was in the chair, thought that it could be worked out as a co-operative undertaking by the council, the camp, the soldiers themselves and the Newmarket Veterans Association.

"Something in the nature of a Y.M.C.A.?" commented Councilor J. L. Spillette.

"Yes, that's it," said Major Geary.

"A good time to start a Y.M.C.A.," suggested N. L. Mathews, K.C., clerk and solicitor.

"You need a house or building that will comfortably accommodate 35 or 40 people of an evening," said Mayor Dr. L. W. Dales. "It's a big undertaking. But you won't be able to keep them away from Toronto. We'll give you every help."

Mr. Spillette suggested that the Sykes house would be suitable.

The town hall and the bugle band hall were discussed as possible places for a club. The bugle band hall was favored, although Councilor Wm. Dixon thought it too small.

It was agreed that a meeting would be called to discuss the project.

A cafeteria would be necessary, Major Geary suggested.

The soldiers might prefer a mixed club to a men's club, he said.

## FORMER NEWMARKET BOY RECEIVES WINGS

William Frederick Edwin Cane, son of Sheriff and Mrs. W. H. S. Cane of Toronto, for many years residents of Newmarket, was among the aviators to receive his wings in a ceremony at Camp Borden on Saturday. He now holds the rank of sergeant-pilot.

B. A. Boyd of Steffville was made a pilot-officer in a similar ceremony at Dunnville on the same day.

## COLLEGE OPENS WITH RECORD ATTENDANCE

Pickering College opened its doors last Thursday to the largest number of students it has ever had.

About 120 students are now in attendance and of these 27 are younger boys in the preparatory school. There were only about a dozen preparatory school boys last year.

## District Holstein Men Ship Cattle Away

Holstein breeders throughout Ontario have experienced a brisk demand for their cattle recently. Shipments have gone forward to such widely scattered parts of the Americas as Colombia, South America, Porto Rico, West Indies, Illinois, Michigan, Virginia, New Jersey, Ohio, Pennsylvania, New York, and all the New England States.

Breeders from this district contributing to these shipments are as follows: L. S. Livingston, Woodbridge, J. Dalton Paris, Newmarket, Watson Bros., King, Harvey W. Moyer, Gordon C. Dimma, Markham, Foster Bros., Richmond Hill, Kenneth R. Campbell, Steffville, C. W. Marchant, and E. V. Marchant, Schomberg.

## RECOVER STOLEN CAR

A car, owned by George Byers, which was stolen early this week, was found yesterday morning by Chief Constable Sloss, in Connaught Gardens.

## SHARON FARMER LOSES BARN, YEAR'S CROP

A large barn, owned by Frank Greenwood of Sharon, was destroyed by fire on Friday night, a few hours after the summer's crops had been stored in the building. The cause of the fire was not known.

A volunteer bucket brigade worked hard to reduce the flames and were able to save a number of cattle and some equipment. The Newmarket fire brigade were called, but, as the supply of water was inadequate due to drought, were unable to save the building and crop. Chemicals were used to prevent spread of the fire. Loss was estimated at \$5,000.

## Hospital Fund Remains Open Two Weeks More

The Lions club carnival committee reports that there was a total of \$19.94 in donations at the carnival hospital booth, where they solicited contributions for the Hospital for Sick Children, London, England.

This hospital, the largest of its kind in the world, suffered \$250,000 damage, and by the miraculous work of the staff, all were evacuated without the loss of a kid's life.

The club has decided to keep the fund open till Oct. 1 to give anyone wishing to make donations, large or small, an opportunity to help rebuild the blitzed wards. The war museum of the C.N.E. also took up the cause. If any reader would care to contribute, donations might be placed in an envelope and left at this office, with the manager of the Bank of Toronto, or with H. E. Gilroy, secretary of the Lions club.

The Lions club is remitting this money to the Hospital for Sick Children, London, without cost.

## Veterans Put On Good Show To Help Soldiers

Lavery, a camp fighter, won A. J. Davis's \$5 prize for the greatest loser at the Newmarket Veterans' boxing bouts in the Newmarket arena last evening.

The army and the airforce put up a grand show, with the army consistently getting the better of it.

The proceeds will send comforts to Newmarket boys overseas. Treasurers of the fund are Alex. McIntosh and Jack Petrie. President Bill White made the splendid arrangements for the show.

Cpl. Phil Rivers was referee. Judges were Sgt. Barber of the R.C.A.F. and Lieut. Payne of the camp. Timekeeper was Frank Courtney.

The bouts resulted as follows: Hanson, army, defeated See, airforce, 155 lbs.; TKO; Barry, army, defeated Dube, airforce, 118 lbs.; Gouin, army, Hartman, airforce, 135 lbs.; draw; Simpson and Lavery, both of camp, exhibition, 118 lbs.

Sgt. Barber's midgits fought a draw. Bloom, army, defeated McDonald, airforce, 155 lbs.; TKO; McCarr, army, defeated Fabian, airforce, 135 lbs.; Robertson, army, defeated Hood, airforce, 150 lbs.; Parker, army, defeated Skutelnick, airforce, 140 lbs.; Pethel, army, Jones, airforce, no decision. Pethel injured.

## DOESN'T AGREE SOLDIERS ALL HAVE BALLOT

**MATHEWS DECLARES ISSUE  
WILL BE SETTLED BY  
JUDGE**

**WITHHOLDS OPINION**

Can the names of soldiers at the Newmarket training camp at the time of revising the voters' list be added to the list without the two months residence qualification, as stated by Councilor Arleigh Armstrong in this newspaper last week?

The Er. put this question to N. L. Mathews, K.C., town clerk and solicitor, this week.

By virtue of his position as clerk of the municipality, Mr. Mathews is returning officer and clerk to the revising officer, and he questioned the propriety of himself entering into any public controversy on the subject of the qualifications of voters.

Speaking privately, however, Mr. Mathews said that his interpretation of the relevant sections did not agree with the opinion expressed by Mr. Armstrong, but, in view of the fact that each individual case will be decided on the merits by the revising officer, who will be his honor, Judge Barton, of Toronto, he felt that any comment at this time would be premature.

## TOWN IS NOT YET ENJOYING NEW WELL

The Strigley St. well is working all the time and the new Cotter St. well is being used as little as possible, Councilor A. D. Evans, chairman of the water and light committee, told the town council Monday evening.

He said that the committee is playing safe until they have proper pumps and equipment for the new well.

## Say Sewers Connected With Storm Sewers

A complaint that the sewer from his house and store backs up into the basement after rainstorms was made by Norman Fry to the town council on Monday evening. He stated that it was a rented building.

"I've been down there and after a storm it is a terrible mess," said Councilor Frank Bowser, chairman of the road and bridge committee. "I think he's connected with the storm sewer."

"People connect with the storm sewer, and get away with it, and then blame the council for the trouble," said Councilor Arthur Evans.

"Do you mean to say that houses are connected with storm sewers?" asked Councilor Wm. Dixon.

"You know they are," replied Mr. Evans.

"Well, it's a terrible condition," said Mr. Dixon. "It's not sanitary."

"We'll dig it up and if it's our fault we'll pay for it, and if it's your fault you'll pay for it—is that agreeable?" said Mayor Dr. L. W. Dales.

"Yes," Mr. Fry agreed.

## GOLFERS ENJOY THREE-DAY TOUR

Eight weary district golfers returned home after a three-day golfing tour on Friday evening. They played the Royal Hamilton course at Ancaster on Wednesday, the famous Lookout Point course at Foxhall, on Thursday, and the Burlington course on Friday.

The three courses visited are among the finest and most difficult in Ontario. Mayor Frank Underhill, Herman Gilroy of Newmarket, Dr. G. W. Williams, H. M. McKenna, L. C. Lee, Dr. C. J. Davis and Dr. O. M. Beattie of Sutton were the itinerant golfers.

## RETURNS TO FIRST CHURCH

Returning by pressing invitation to the scenes of his first ministry, Rev. Dr. A. E. Runnells of Trinity United church conducted the anniversary services at Williamsburg United church on Sunday.

## IS PROGRESSING

Walter Hall of Sharon, who is ill in York county hospital, is progressing favorably.

## THOS. LLOYD WAS WELL KNOWN IN NEWMARKET

In his day a popular "caller-off" for square dances, a good singer and fiddler, Tom Lloyd died last Wednesday in York county hospital and was buried on Friday in Queensville cemetery. He was in his seventies.

He farmed in King township for many years, and for about the last 15 years had lived in Newmarket, going out to work on various farms by the day.

His wife, three daughters and two sons survive.

## Town Will Stiffen Arrears Collection Water And Light

**Mayor Urges Stricter Collection Of Water  
And Light Rates From All Citizens**

Stiffening of the town's water and light arrears policy was promised at a town council meeting on Monday evening.

"Your whole method of collecting arrears is wrong," Mayor Dr. L. W. Dales told the council. "The poor are cut off. The rich are not. The only way is get back to a 30-day or 60-day basis, and allow a discount for early payment."

N. L. Mathews, K.C., clerk and solicitor, outlined the situation to the council and presented a list of householders three months in arrears. He said that no favors were shown as between one person and another, but that services were cut off, not according to the amount of arrears, but according to the length of time owing. He also said that a person who made a payment on account and promised to pay the rest would be better treated than another person who paid no attention to the discontinuation of service notice, even though the latter might owe less money.

"A 60-days resolution was put through last year," said Councilor A. D. Evans, chairman of the water and light committee.

"But nothing was done about it."

"You are making your own trouble by accepting part payments after notifying them that you are going to cut them off," said Deputy-Reeve Joseph Vale.

"I think the clerk is doing a good job and should be allowed to carry on," said Reeve F. A. Lundy.

"The clerk is in a difficult position," said Councilor J. L. Spillette. "If someone comes in and offers you a few dollars on account, it is pretty hard to cut them off."

"Do you mean that this council is not in favor of doing this in a progressive way, collecting at an arbitrary time, like Toronto or any progressive municipality?" asked Dr. Dales, suggesting 60 days be allowed.

"Stay with the 90 days," suggested Deputy-Reeve Joseph Vale.

"We will clean up the 90 days arrears and then go to the 60 days if you wish," said Mr. Mathews.

Mr. Mathews insisted that he must not be interfered with in carrying out the policy the council agreed on.

## Former Town Bandmaster, Paul Arlitt Taken At 51

**WAS FORMERLY ACTIVE IN  
TRINITY UNITED  
CHURCH**

A resident of Newmarket for 20 years, Paul Arlitt died early Friday evening of a stroke following two months illness. He was 51 years old.

Born in Milwaukee, Wis., he grew up there, living in Niagara Falls, Ont., for some time before coming to Newmarket. He married Margaret Norine Simmonds of Barrie on Sept. 9, 1913.

A tool and diemaker by trade, he worked with the Office Specialty Mfg. Co. in Newmarket. Gifted musically, he was for some years bandmaster of the Citizens' band and played cornet and clarinet. He started his son, Jack, on his brilliant career with the cornet.

Mr. Arlitt conducted an orchestra at Trinity United church for some time, and taught in Trinity Sunday-school for some years. He belonged to Tuscan lodge A.F. & A.M., to the Scottish rites at Barrie, and to the Oddfellows.

Surviving are his wife and son, Jack Paul Arlitt.

Rev. Dr. A. E. Runnells conducted the service on Monday at Roadhouse and Rose funeral

chapel. Pallbearers were H. M. Hooker, H. A. Jackson, Wesley Brooks, Frank Bothwell, C. F. Willis and A. M. Mills.

The Masonic lodge conducted a service at Newmarket cemetery.

## Isolationists Who Don't Believe In Missions Chided

**FEDERATION OF NATIONS IS  
NEXT STEP, DR. ENDICOTT STATES**

"Isolationists" in the church were chided by Rev. Dr. Charles Endicott, Toronto, home mission secretary of the United Church of Canada, in a sermon at Trinity United church on Sunday morning.

"God created the family, because it was not good for man to be alone," said Dr. Endicott. "In time men formed the tribe and then the nation. God is waiting for men to take these nations and weld them into a federation."

"It may be that as a result of this war some man will be raised up, or has been inspired, to show how God's children can live together."

"When Prime Minister Churchill and President Roosevelt met the other day they thought in world terms. They left nothing out."

"Disease can't be kept in one country. If there is disease in the United States it comes to Canada. Disease in China can't be kept there. We can just choose where we will fight it, there or here."

"The same applies to religion. We are impatient with Senator Wheeler and Lindbergh, because they think the United States can keep out of the war. But don't

Max Smith has returned from a trip to western Canada. He reports a good crop and nowhere to put it. Elevators and granaries are going to be taxed again to overflowing.

**THE SECRET PEOPLE**

How would you like police to come along some day and without telling you why arrest you and take you to an internment camp? It might happen to you any day. Then, of course, you could appeal for a hearing. You could have the police tell a judge in camera why they were detaining you, and you could call friends and witnesses to tell why you shouldn't be retained. Then the judge would render his judgment. He would say that there was no good reason for holding you, that the police were mistaken.

Then you would be liberated, wouldn't you? Not necessarily, the police and the department of justice, convinced against their will, are of the same opinion still. They are free to disregard the advice of the judge and continue to hold you in custody. They frequently take that course.

Rights supposedly based on Magna Carta and supposedly won long centuries ago have been abrogated by the Canadian parliament and the Mackenzie King government. This would not be possible in the United States, for the U. S. constitution provides: "The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it."

Sir Norman Birkett, English lawyer, told the Canadian Bar Association in Toronto last week: "It is a most terrible thing to contemplate that the devastating power of the secret police can be above the law. It is a terrible thing to contemplate that men and women, ordinary citizens of state, can be taken secretly into concentration camps upon the bare word of some secret agent and left without trial or charge, or investigation, in many cases to linger and die. It is a terrible reflection upon any system of so-called law that a member of the bar dare not defend a person if the government has determined to destroy him."

It is all very well to pass it off with the careless remark that our Canadian government, or police employed by the government, are not going to hold without trial and without good reason anyone who isn't helping the enemy. Helping the enemy becomes hindering the war effort and hindering the war effort becomes not promoting the war effort—and well Canadian labor organizations are charging that men are being held in internment camps for no other reason than that they were trade union leaders advising or leading strikes. Strikes are still lawful in Canada.

The Toronto Star, which is surely a generous supporter of the Mackenzie King government, says:

"J. L. Cohen has given to the Canadian Congress of Labor, in convention at Hamilton, an amazing report on the internment of C. S. Jackson, labor union official. It is, in fact, so amazing that The Star finds it impossible to believe that it reveals the whole truth about this case. If it does, it constitutes such a condemnation of the administration of the federal department of justice that all the things that have been said heretofore about that administration become believable. Mr. Cohen's statement is, of course, an ex parte one, but it has been publicly made, and awaits refutation. It concerns a single internment. But if it is true, the public will naturally ask, How many more such cases are there? And are defence regulations which were designed as a protection against sabotage and plotting being used to deprive labor leaders of their long-accepted and government-proclaimed rights?"

"But we must say again that we find it impossible to believe that a Canadian government would keep a man interned on such charges as Mr. Cohen outlines, especially a government which has always proclaimed its friendship for labor. If, however, Mr. Cohen has given the whole picture, the action of the federal administration has been so outrageously a violation of the lawful liberties of a labor organizer—or indeed of any citizen—that the case will constitute a blot upon its record and upon the administration of Mr. Lapointe's department."

**NOT REASONABLE**

Whether or not soldiers at the military camp are entitled to vote on the question whether Newmarket shall be a dry town or a wet town now and in the years to come will be determined by the county judge who revises the voters' list. And the judge will be guided by the statutes.

Aside from the legal position, all fair-minded people will agree that it is not reasonable that persons who are not living here with the intention of making it their home—whose children will not have to grow up here—who will be able to leave the community if a wet experiment turns out badly—should have a vote. It is a question to be decided by bona fide citizens of Newmarket, and not by temporary guests.

We do not assume that a majority of the fine young men at the camp would vote to make Newmarket wet, but we do assume that those who are wet-minded would be the ones whose names were added to the list.

**FIGURATIVELY SPEAKING**

"We draw cloths around cloth thieves," says the *Stouffville Tribune*. Yes, and we can hear the "woof, woof" of the police dogs as the good ship "Arrest" is warped into the dock.

**BLESSINGS ON THEE, BAREFACED BOY**

It is not safe to assume that everybody living in a town is interested in improving it. In every community there is a large proportion of bandits, rebels and saboteurs. This latter group are to be found attending our schools by the hundreds. They are just normal healthy boys and girls, but they would as soon destroy as build. They have no compunction about cutting their initials in a new desk, defacing a newly-painted wall or writing their names in the concrete of a new sidewalk. And there's nothing you can do about it—except remember that you were once a barefaced boy (or girl), for we are told that it was girls who made a mess of the new concrete in front of Trinity church.

**CONSERVATIVE PROMOTED**

Harold A. C. Breuls, Toronto barrister, who twice ran for parliament unsuccessfully as a "North Gwillimbury plowboy," has been appointed assistant adjutant-general at Ottawa. North York people will be glad to hear of Major Breuls' good fortune. It is also obviously not a political appointment, for Major Breuls spoke freely and openly and as a Conservative. Incidentally, Major Breuls was said to have spent \$5,000 or \$6,000 out of his own pocket in one campaign and that was pretty heavy going for a young man, although a mere bagatelle as election expenses go in this historic riding.

**A BLACK CHAPTER**

Ruthless execution of Norwegian labor leaders by the invading power seems as black a chapter as the Nazis have written. We suppose it is logical that wars should become more and more horrible before they are finally outlawed forever, and distant fields of battle of other centuries do look green in comparison with the twentieth century's. Once fighting ceased with the sunset and men slept in peace. Even in the last war the battle was chiefly between men in uniform. No doubt there were offences against civilians, but many of the alleged "atrocities" were admitted, after the war, never to have taken place. The submarine did strike cruelly at civilians, however, and there was the countering food blockade which spread disease and famine in Germany.

This time we have "total" war. The German armies in their invasion of France harried the civilian population to clutter up military roads and interfere with Allied army movements. Bombers strike their principal blows, not at armies, but at cities. The conquering Nazis apparently execute civilians by the hundreds to subdue the conquered peoples. We believe these stories, because the Nazis used the same method of government on their fellow citizens before the war. A civilian no longer needs to be a spy to be shot. No Edith Cavell incident is possible in this war. Innocent persons are executed for what others over whom they have no control have done.

Treatment of the Norwegians is so awful that Germany's ally, Finland, permits one of its own newspapers to write sympathetically of what is going on in that country. Now that Finland has recovered what she lost to Russia, when Russia was the aggressor, she must surely soon disassociate herself from Nazi Germany.

**IS COMMUNISM A MENACE?**

It is understandable that many people in this country and in Britain should be half-hearted in their sympathy with Russia against Germany. Russia did not come into the war with clean hands, but Russia's aggressions aren't the real quarrel with Russia, for people are broadminded enough to realize that most old world nations have made mistakes of that sort.

The real quarrel with Russia is that she has tried to spread her political philosophy in other countries, and that philosophy includes the upsetting of existing governments by force if necessary. There were many persons in Britain, and probably in Canada too, who before the war preferred Germany to Russia. These people regarded fascism as an answer to communism, and communism would take their property from them, and their property was the most important thing in the world.

Prime Minister Churchill put the case clearly when he said (in effect): "Those who fight our enemies are our friends and will have our help." Why there has not been more help so far will be answered some day, but we may assume that Mr. Churchill has had a good deal of influential opposition to overcome in giving the help he has already given. Mr. Churchill dislikes communism, but he is clear-eyed enough to hate Nazism even more.

In comparing Nazism and communism we should bear in mind that the first is a fanatical doctrine of race superiority and race expansion, while the second is an economic and political doctrine which all the world is invited to adopt. The first spreads itself by the sword, and the second spreads itself with the pen or the spoken word primarily (and the sword in a pinch).

Russians do not believe that Russians are superior to every other race but they believe that communism is superior to capitalism. They do not seek to set Russians up as governors of other countries, but they seek to set up the common people as the rulers in every country.

In comparing Nazism and communism we should remember that Nazism can and does supplant something better but that communism can only grow where there is economic distress and discontent. Communism gained a foothold in this country in time of depression because we could not solve our economic problem. Communism can only expand if we cannot offer something better. Communism will be no threat in this country when we learn—as we shall learn eventually—how to avoid this new kind of unemployment which results from our ability to produce so much so easily.

Communism started in Russia because Russia was so far behind the times, because the common people were depressed educationally, economically and politically. And communism has done the

people of Russia a lot of good. It has proved a useful form of government for them. Like the French revolution it has brought with it a lot of violence and ruthlessness. Like the French revolution it may devolve into something with more room for religion and private property, but like the French revolution it will have done the rest of the world a lot of good, and speeded up our own search for "liberty, equality and fraternity."

**MUNICIPAL FINANCES**

The town council discussed briefly improvement of Main St. and renovation of the clerk's office at a meeting on Monday evening. Provision was made for something to be done in both these matters at the time of budgeting. It seems now, however, that the work will not be done because it is war-time.

The decision may be right, but one or two points should be borne in mind. Main St. is more crowded than ever, as an indirect result of the war, and the town clerk's office is handling more business than ever, as an indirect result of the war. The amount of money to be spent on these two projects was not large, about \$500 on each we believe, but might have afforded a little bit of needed relief. The money in each instance might prove a good investment.

The other point to bear in mind is that, unfortunately, under Ontario's system of municipal financing, we are not allowed to accumulate funds in good times expressly for expenditure in hard times, and in hard times it is unfair to collect money for any avoidable expenditures. Now we don't say that these are "good times" but they are certainly better than some we may expect after the war.

If we are not going to do now the obvious little things like repairing the sidewalks that could not be done during the long depression years, let us at least make a sizeable payment on the new well out of this year's current revenue, and thus ease the burden on future bad years. Let us maintain the tax rate and improve the town's financial position by increasing our reserves against uncollectible taxes. Let's be future-wise.

**THE CHUMS GROW FAT, BUT THE SQUIRRELS GROW FATTER**

BY RUTH DINGMAN HEBB

"These are the grandest days of the whole year," chirped Nutty Nuthatch happily to his Chickadee friend, Young Chips, and his Woodpecker friend, Woody, the Downy Woodpecker. The three of them were lazily eating in a big evergreen tree near the edge of a woods.

"Today has been simply perfect!" agreed Young Chips cheerfully. "A day of real summer heat like we've had today is a treat. Everybody in the woods and fields seems to be feeling gay and frolicsome."

"I don't," sighed Woody. "If I eat another bite I think I'll burst. Food is so plentiful just now at the harvest season and I've been eating almost steadily all day today. Now I've reached my absolute limit."

"That's what we should be doing, fattening up for the long, cold winter," said the Nuthatch. "And I've certainly been trying to, myself. Do you boys think I look any fatter?"

"You always look fat," said Woody. "It's your shape. I wonder that you can hold yourself to that trunk in that upside down position, though, if you've been eating all day like I have. Don't you get dizzy?"

"Not a bit," said the little blue-gray and black and white fellow. "I just hang on with my fine, sharp, little claws. It's a cinch. Just look how long they are and what fine hooks they make." He held one out and the others glanced at it.

"Yes, they are certainly built just right for the purpose," said the Chickadee. "Mine are fine for curling around things and holding me upside down on branch tips, but I couldn't do it head downward on the side of a tree the way you do. I'd overbalance for sure."

"Look who's here!" exclaimed Woody suddenly in a none-too-pleased tone of voice.

The three chums stared up above them into the tree and saw two Red Squirrels glaring down with bright inquisitive eyes. One was obviously a young Squirrel and the other a grown-up.

"What are you two doing in this tree?" inquired the Nuthatch in loud tones, while his companions glared angrily.

"You look fat enough to explode," added Young Chips, "so don't tell us that you're hunting for something more to eat here. We want the seeds in the hemlock cones ourselves."

"Oh, no, we're not hungry, so you needn't be alarmed," replied the older of the Squirrels. "My son and I have just had a perfectly splendid feed of sweet, milky cone, anyway. We're just roaming idly around enjoying ourselves and eating our heads off these days, and as you say, we're getting fat."

"Pop and I are going to start storing away nuts and things for the winter in a few days," volunteered the younger Squirrel in a loud voice. "And I'd just like to see anyone try to steal any of my stores, too. I'd fix him."

"Well, you needn't be so violent about it—we're not interested in them," Woody said. "Not right now, at any rate. Although it would certainly serve you right if we birds did take everything we could find of yours, to partly pay you back for the way

**WHAT OTHERS THINK**

**STREET RENT**

(Bowmanville Canadian Statesman)

In a western town not so long ago, the town council divided upon the suggestion that motorists who park cars day after day on the main street ought to be charged rental or business tax for the space so occupied. The debate centred around the case of one man although nearly all the merchants in town were in the same category. They drove downtown, parked their cars in front of their premises and left them there all day save for meal times. Here was the argument: "Murphy is in business; he pays a floor space tax on his premises." "Yes." "But he occupies also about 32 sq. feet out on the street day after day." "Yes, that is true." "Pedestrians cannot use that space though they pay taxes too; they are forced to walk around that car if they wish to cross the street."

These were only part of the arguments. The case was so simplified that the whole council were unanimous. The man with the car so parked was condemned as a road-hog and ought to pay for the space. It hit a good many, even among councillors. But they solved the situation by passing a by-law of "one hour parking on penalty of a fine or impounded car." Then they took up the matter of a habit motorists had gotten into of making a "U" turn, to the detriment of pedestrians, opposite one of the busiest chain stores in town. They stopped that too, under penalty.

And they made the police commission enforce the law. In one session alone they solved and settled the whole matter. And it worked. This meeting took place shortly after installation of traffic lights at the main intersection. This may have forced the issue because double parking and modern traffic lights just don't hitch. When this information came to The Statesman, it was observed that conditions almost identical obtained in Bowmanville until the parking signs were erected last week. There were the parking, the "U" turn and the new lights. The coincidence was remarkable.

**The Common Round**

LOYALTY  
By Isabel Inglis Colville

We all have our loves and hatreds, our likes and dislikes, our loyalties and betrayals, but I suppose the word in its fullest meaning which is most often used these days is loyalty.

Some people have loved and some people hated the same cause and yet have been loyal to it for as different reasons as were compassed by their loves or hatreds.

There is the fanatical loyalty that insists that "the end justifies the means" and, therefore, is far from particular about the means used to attain that end. And there is the steady unwavering loyalty which men and women give to a cause they believe, righteous or to a person whose views coincide with their highest ideals.

All down the centuries there have been men and causes which drew to themselves the unwavering loyalty of many followers, and also, along those same centuries, there have been betrayals just as spectacular.

Sometimes a cause has been betrayed by factors other than human—by hunger, by weakness, by persecution and by loss of faith; if the cause were great enough it rose again, and like a giant, refreshed, conquered where before it seemed to have lost all.

Loyalty is a many-sided thing, for it isn't always a worthy person or a worthy cause on whom it is lavished—and people have often clung to a lost cause, even at the risk of losing life and property and freedom.

Look at the people who, at the risk of everything they hold dear, still plot and plan to restore the Bourbons, the Hapsburgs, the Hohenzollerns and Romanoffs to their thrones. And beneath all the volcanic fires which are seething beneath the surface in the conquered countries, there are these other fires, banked just now because of a great common danger, but ready at any time to flare up if a chance to restore any of the fallen monarchies should arrive.

The worthwhileness of a cause can never be reckoned by the number of its adherents, or even their fitness to uphold it. In Lord, at the time of his crucifixion, was unknown outside the narrow bounds of Palestine. When He approached a town, no heralds blowing fanfares marked his triumphal entrance—once he did he enter a city with pomp and ceremony and then marked the prelude to the world's tragedy.

But the common people who "heard Him gladly," people with no position, no wealth, nothing but

**ERA PAID SYSTEM IS SUCCESS WITH PUBLIC**

The paid-in-advance subscription policy of The Era is an accepted and appreciated institution in northern York county. The system was adopted because of repeated complaints that subscribers shouldn't be carried on unless definitely renewed.

Now notices are sent by mail to the subscriber informing him of the expiration of his subscription, and if he doesn't reply the assumption is that he doesn't wish to renew at the time. This system seems to please the public, as subscribers come in cheerfully to renew or, if their subscriptions have been discontinued temporarily, to resume their subscriptions.

And they always start with a clean sheet. The Era never has to ask anyone to pay for a "dead horse."

The Era adopted this modern system on its merits with the idea that it would please the public better. An incidental benefit was that The Era was enabled to join the Audit Bureau of Circulations without any difficulty.

## POLICE COURT FOUND MAN ASLEEP IN BURNING VEHICLE

Pleading guilty before Magistrate W. F. Woodliffe in Newmarket police court on Tuesday, to illegal possession of liquor, William Banfield, Toronto, was fined \$10 and costs or ten days.

According to Constable William Hill, Butlin, in the early morning of Aug. 31, while patrolling the road east of Sutton which leads to Port Bolster he came across a car parked by the side of the road. On examining the car he found the defendant asleep and the cushions on fire. The defendant had been drinking but was not drunk, he said.

In his defence Mr. Banfield stated that he had fallen asleep and dropped his cigarette. "It is a good thing the officer was there," commented his worship.

As the complainant in the case of

Herbert Patrick, Aurora, charged with theft of a cow valued at \$60, the property of Thomas Johnson, King, was ill and unable to appear in court the case was adjourned until Sept. 30.

For cutting in and forcing a fellow motorist to the side of the highway, Roy Webber, Toronto, charged with careless driving, was fined \$5 and costs. Provincial Constable Alex. Ferguson testified that he was guiding traffic for a funeral about a mile south of Aurora when he noticed the defendant. He stated that if the other car had gone off the road it would have gone over a steep bank.

George Huntley, Willow Beach, was committed for trial on a serious charge.

Magistrate Woodliffe, remanded for judgment until Sept. 23, Mrs. Georgina Schneider, Kitchener, who was charged with careless driving and driving while intoxicated. She said that it was the first time she had taken a drink.

According to Miss Beatrice Lyons, Newmarket, she was returning home last Saturday evening from a business trip when she noticed the defendant's car going south ahead of the car in which she was driving on Yonge St.

"As we approached this car, I observed it weaving on the road," she stated. "At times it went off the road at the right-hand side. It would go off the pavement and then pull back on the road and cross over the centre line a possible one or two feet."

The witness stated that she followed the car from about a mile south of Bradford to about a mile north of Huron St. She notified the police in Aurora. She stated that at the time she was with the crown attorney and her law partner, N. L. Mathews, K.C., who questioned her.

Constable Aubrey Fleury, Aurora, who took the accused woman to a doctor to be examined, said that she had an odor of liquor on her and that she was unsteady on her feet. "I would say she was in no condition to drive a car," he stated.

Constable Fisher Dunham, Aurora, testified that in his opinion the woman was intoxicated. He said that when he stopped her car and asked her to drive up to the side of the road she became mixed up with the gears and finally backed up into the curb.

Dr. Clifford Devins, Aurora, who examined the defendant, also testified to the defendant's unfitness to drive a car.

On the stand the woman admitted having two drinks of gin in North Bay and two more with friends in Huntsville. In Barrie she had some beer and sandwiches. She said she did not recall zig-zagging on the road. She said that she was unaccustomed to taking gin.

Passengers in the defendant's car testified that they had the same amount of gin and did not feel any effects. One woman stated that she "felt quite safe in driving with the accused."

Pleading guilty to careless driving in Aurora, Norman Bennett, Toronto, was fined \$10 and costs or ten days.

According to Constable Fisher Dunham, he stopped the defendant's car at Wellington and Yonge Sts. in Aurora after receiving a complaint from a passing motorist to look out for a certain car.

"By the action of the driver of the car I thought he was not capable of driving," stated the officer. "I took the car away from him and put it in gear so he had been zig-zagging all over the highway."

Mr. Bennett admitted having had a few drinks.

Because some of the witnesses are still in hospital, the case of John Napier, charged with dangerous driving in Aurora and with leaving the scene of an accident, was adjourned for two weeks.

The case of George Grainger, of Barrie, charged with parking, was adjourned until next week, as was also that of Joseph Amodeo, Toronto, charged with careless driving.

After hearing the evidence on both sides, Magistrate Woodliffe dismissed the charge of careless driving against John Napier, Mount Dennis, in a case to be handled by the civil rather than the criminal courts. The defendant's truck had been involved in a slight accident with that of Heath Mooney of Toronto and the insurance company had declined to pay him damages. No marks were on the Olsen truck.

Frank Beamish, Toronto, charged with theft of chickens from the coop of Colin Sheardown in King, was committed for trial. The defendant asked his worship to be tried by judge and jury.

In his testimony Mr. Sheardown stated that he had been awakened in the early morning by his wife and went to his hen-house. He picked up a crow-bar on the way. He found this bird in the coop and identified as the defendant, in the coop. About 40 laying hens which he valued at about \$10 were tied up in sacks.

"I stood at the door and told them to come out and I'd smash their heads in," stated the witness.

"And did they?" asked Crown Attorney N. L. Mathews, K.C. The witness replied that one of the men smashed a window and that Beamish struck at him with the feed trough. They got away when he fell on the ground.

"I can't understand why two men living alongside of one another can't get along, just because two small children can't get along," Magistrate Woodliffe was speaking to John Sheard and James B. Cotter, Newmarket, whom he bound in the sum of \$50 each to keep the peace. He dismissed a charge of threatening brought against Mr. Sheard at the instigation of James Cotter.

According to Mr. Cotter the trouble arose out of a squabble between his son and Mr. Sheard's little girl, both about nine years of age. He stated that the defendant came to his porch and pushed his son and threatened him. He said that later he went to Mr. Sheard's home and hit him with his fist.

Asked by his worship what his age and height are, the witness stated that he was 27 years of age, six feet tall.

"And you are afraid of him, an elderly man?" asked the magistrate. "I am afraid that he will beat on my child," the witness further stated that Mr. Sheard swore at him and threatened him.

"Did you expect him to say anything else after you beat him up?" commented his worship.

Mrs. Margaret Kay, Newmarket, mother-in-law of the last witness, explained how the children had fought over a wagon. She said that the defendant threatened that it would be the last time he would warn her about her grandchildren and she thought he meant that he would take it to law.

In his defence Mr. Sheard told his worship that he had gone to the door to answer a knock when Mr. Cotter struck him in the face and then did the same to his wife. He said that his wife chased Mr. Cotter with a broom.

"I am convinced that you were driving in a manner dangerous to others and I fine you the sum of \$25 and costs," Magistrate Woodliffe advised Roy Hendry, Orchard Beach. "The only excuse you have is that you may have had a heart attack. I am going to suspend your license to drive for two years, at the end of which time I recommend that you have a physical examination before you be permitted to drive. If there was not some doubt in my mind about your condition you would have been sent to jail."

According to Donald Felsinger, Toronto, he had been driving on the highway near Queensville when the defendant's car pulled out from behind another approaching car and collided with his car. The fronts of both cars were damaged.

Dr. S. J. Boyd, Newmarket, who examined Mr. Hendry after the accident, stated that he found him under the influence of liquor. "I asked him where he was going and he said home," testified the witness.

"I asked him which way he was driving on the highway and he said he didn't know," Arleigh Armstrong counsel for the defence, cross examined Dr. Boyd about the accused man's condition.

"I arrived on the scene about 2 p.m. and found two cars, one on the shoulder of the road and the other in the ditch," testified Constable Joseph Jardine. The officer said that he found an unopened bottle of gin in the defendant's car.

On the witness stand Mr. Hendry said that he did not know what happened. He had had a number of beer attacks in his stomach and thought that he might have become dizzy while driving. He had been discharged from the army because of his heart condition. He said that he was taking the gin to his mother.

## POLICE COURT Commit Two Men On Manslaughter Charge

After a preliminary hearing into the manslaughter charge against Thomas Wright and Henry Muir, both of Toronto, Magistrate W. F. Woodliffe in Newmarket police court Tuesday committed the two men for trial. The charge arose out of an accident which happened on the ninth concession of Whitechurch on July 6, and in which James Thomas, Toronto, lost his life.

Pte. Earl Clare, R.C.O.C., Barriefield, Kingston, told his worship that he and Pte. Harrison were returning from a dance at Musselman's Lake when a woman halted them.

"We arrived shortly after the accident had occurred," stated the witness. "The car was lying on its side. We helped four people out of it." The soldier went on to say that he was not aware of the dead man until one of the women asked, "Where is my uncle?"

When he, Private Harrison, another man and Mr. Muir turned the car over they found him pinned beneath it.

"He was alive at the time but very badly crushed. He died shortly after, never regaining consciousness," stated Clare.

"What was the condition of the people?" asked Crown Attorney N. L. Mathews, K.C.

"They had been drinking," was the reply. He gave as his reason for believing this that the breath of one man smelled of alcohol, and beer bottles were strewn about the ground and in the car.

Asked by defence counsel, Frank Moore, Toronto, what the condition of the road was, the witness stated that it was exceptionally dusty.

In describing the position of the car Pte. Russell Harrison, R.C.O.C., Barriefield, stated that "the driver's seat was down." There was nothing to indicate how the deceased came to be pinned under the car. He said that he helped Mr. Muir and a young lady out of the rear of the car.

According to County Constable Aubrey Fleury, Aurora, the accident took place shortly after midnight on July 6. He had passed the same place at about 11.55 p.m. before the accident had happened and when he returned at 12.10 the car was upturned in the ditch and two soldiers were giving first-aid.

"Wright stated, 'there were five of us in the car,' Muir, Mr. Muir, Miss A. Palmer, the deceased, and myself," testified the officer. "He said that the deceased was in the rear seat with Mr. and Mrs. Muir."

"Did they give any explanation of the accident?" asked the crown.

"That night Muir stated that if he had been driving the accident would not have happened, as he knew the road," replied the constable. "Wright stated that they had been drinking and that they had a bottle of beer in the car. Muir also stated that they got some beer in his home and stopped at a hotel for another drink. Wright stated that Muir had given him the beer to bring to the cottage."

Asked about the condition of Wright, Constable Fleury stated that he was not on the scene when he arrived but when speaking to him about ten or fifteen minutes later he smelled strongly of alcohol. "He was unsteady on his feet, his speech was thick. Being intoxicated, he was in no condition to drive a car."

The witness added that Muir was also intoxicated but that the ladies may have been excited because of the accident. He said that Mr. Wright had told him that they had been going to their cottage at Musselman's Lake at the time. He found 21 pints of ale in the trunk of the car, one bottle on the floor and some empties on the ground. Marks on the road indicated that the car had gone 21 feet, then another 40 feet, then going another 12 feet without touching the ground, landing on its side.

"Do you mean to say that the car went 21 feet, then 40 feet and then leaped through the air like the man on a flying trapeze for 12 feet?" asked the defence. The officer stated that he was going by the marks as shown on the road. The car had come to a stop astride a wire fence about nine and a half feet from the edge of the road.

Dr. Henry S. Bell, Stouffville, who attended the deceased at the side of the road and who later was present when the autopsy was performed stated that death was due to pulmonary injury and shock. "The only abrasion on him was on the back of his hand. He was dead when I arrived." The doctor also testified that Mr. Wright was intoxicated.

Corporal Hisey, Ballantrae mechanic, who examined the car after the accident, stated that the brakes and the headlights were in good condition. The steering-gear was badly bent but nothing to indicate a cause of the accident.

Defence counsel, in summing up, argued that there was not enough evidence to send the defendants up for trial. His worship, however, believed otherwise and advised that there was sufficient to send the case before a jury.

Magistrate Woodliffe heard 21 cases of speeding, 13 persons receiving fines ranging from \$5 to \$20, and costs. The rest were adjourned until next week. Four motorists were fined exceeding the speed limit on Yonge St., six in Aurora and four in East Gwillimbury.

One time a neighbor came over and wanted to borrow Grandpaw Snazzy's new rope and Grandpaw Snazzy says: "No, I've got to use that rope today to tie up some sand." After the neighbor left, I says, "Grandpaw Snazzy, you know you can't tie sand with a rope!" Grandpaw Snazzy says, "Remember, my boy, you can pret' near do anything with a piece of rope if you don't want to lend it."

happened. He had had a number of beer attacks in his stomach and thought that he might have become dizzy while driving. He had been discharged from the army because of his heart condition. He said that he was taking the gin to his mother.

## WHITCHURCH SOLDIERS CAN HUNT JUST LIKE RESIDENTS

Whitchurch township council will obtain an estimate of the cost of a larvia road around Musselman's Lake, a distance of three miles, from Wells corner, Ballantrae, to the ninth concession and north to the county road at Church Hill. They will also look into the legality of constructing such a road under a local improvement plan whereby the lake ratepayers may be specially assessed for the total cost.

This step was taken at the request of the Musselman's Lake Ratepayers Association, who feel that such a road would be a real asset to their properties. Reeve Earl Toole said he would cooperate in any way and would be glad to look into the legality of the matter and the proper procedure to be followed in addition to obtaining an estimate of the cost of such a road.

The council in session at Vandorf on Saturday were informed by letter from the unemployment insurance commission that township employees would not be required to contribute to unemployment insurance.

Relief for the month was down to \$78, and hospitalization was \$95, a marked improvement over just a few years ago.

Information received from the Ontario department of game and fisheries advised the council that non-resident soldiers would be entitled to hunt in the province under the same conditions as residents of this province, that is, they would only require the local license procurable by any person desiring to shoot game in Ontario.

A sheep claim for \$15 was paid to Arthur Emmerson, with a claim for flock damage to come later. This is the first damage done by dogs in the township for some time, and indications are that claims will be light this year.

Percy Ash asked for a new agreement for the land on which his booth at Wilcox Lake stands, as he proposes to erect a fine and commodious new building with accommodation beneath for boats.

Reeve Toole presided over the meeting. Other members present were Deputy Reeve Leary, and Councillors Baker, Logan and Wells.

The road budget was passed for payment, totalling about \$2,000, and the following other accounts were ordered to be paid: J. Crawford, hydro and postage, \$18.73; Town of Aurora, Wilcox fire, \$40; office letter

\$28.68; Loblaw Groceries, \$11; H. Ross, \$24.75.

Miscellaneous accounts included: Dr. B. L. Sinclair, medical service, \$10.50; Jas. Rennie, drugs for indigent, \$7.35; E. Strasler and Son, ambulance, \$16; Percy James, \$38; Wm. Crouth, sheep valuator, \$4; F. Cunningham, sheep valuator, \$2; Fred Gartshore, wood cutting, \$1; hospital accounts, \$110.12; J. E. Jardine, constable, \$70; J. J. Farr, relief salary, \$10; J. L. Smith, clerk, \$100.

Road accounts: culvert, \$23.70; repairs, \$60.18; gravel, \$350.70; stamps, \$3; crushing, \$306.72; resurfacing, \$324.55; weeds, \$57.60; superintendent, \$115.

The new power grader has arrived, the council was told. The council adjourned to meet again on Saturday, Oct. 4, at 10 a.m.

## Loans To Help Small Business Grow Big

"Do you think The Bank of Toronto will be interested in loaning money to a business as small as mine?"

"Naturally, if it is in your best interests, they will. They want to encourage small business, and to have a part in its growth. The Bank of Toronto is the type of Bank at which credit-worthy business men—large or small—are welcomed. I suggest you drop down this afternoon and talk it over with their officials."

# GET MORE PROFITS ON MARKET HOGS

by feeding your pigs Quaker Pig Starter

● To make profits from hogs, feed Quaker Pig Starter, and get them ready for market at 200 to 220 pounds weight at the age of about 5 to 6 months.

Quaker Pig Starter is built around oatmeal, and research farms have definitely proved that oatmeal makes pigs grow faster, develops big strong frames, and increases resistance to disease. Because oatmeal is 94% digestible, there is less waste, and the pigs convert it into meat far more quickly and economically.

Scientifically correct, Quaker Pig Starter contains all the 17 ingredients required to give best results in developing strong, fast-growing hogs from the third to tenth week; including iodine to prevent goitre; iron to prevent anemia!

For finishing after the tenth week, feed Quaker Pig-N-Hog Maker.

# WITH THE SOLDIERS MORE SATISFACTORY

A number of interested growers, corn borer inspectors and seedmen, under the direction of W. M. Cockburn, York agricultural representative, made a tour of inspection to four farms where the York County Crop Improvement Association is conducting tests of different strains of hybrid corn, compared with Golden Broom, one of the outstanding varieties of open pollinated corn. In all cases the hybrids were superior though there was very little corn borer in any of the corn. The hybrid excelled in strength of stalk, quantity of leaf and ears with a decidedly more uniform setting and size of ear.

There was one plot where there had been more rain, and the Golden Broom was badly lodged while all the hybrids were standing perfectly. Mr. Cockburn stated that this new type of corn must be planted not heavier than seven or eight lbs. per acre to get the best results. He told of one farmer unsatisfied with hybrid, who, when questioned, admitted he had planted two bushels on seven acres, or 16 lbs. per acre.

In the evening a field meeting was held in plots on the farm of S. E. Watson, of Agincourt, where half of each plot had been fertilized. The party toured the field on a hayrack to enable them to see over the top of the corn. The fertilized corn had tasselled out a week earlier and was showing a little more maturity as well as extra length. Dr. McKee, of the field husbandry department of the O.A.C., discussed the development and advantages of hybrid corn, pointing out that the demand for this corn has increased so rapidly that there will be a very small percentage of seed corn in future of the old varieties.

Incidentally, a report from the provincial entomologist gives the count of corn borers this year as 28 percent of stalks affected as compared with 38 percent last year in York county. The reduction is attributed to a more thorough clean-up, coupled with less favorable weather for the corn borer during the incubation period in June and July. He stresses the value of doing as much clean-up work as possible this fall. It should be kept in mind that while hybrid corn is resistant to borer it is not entirely immune. The strains tested out on the plots were Wisconsin 606, Wisconsin 625 and Wisconsin 645.

Jack Bradbury Becomes R.C.A.F. Pilot-Officer

On Saturday in an impressive ceremony at Dunnville John Bradbury of Aurora received his wings and was created a pilot-officer of the R.C.A.F.

There were about 60 airmen in his class and only the top ranking ones are selected as pilot officers. He is now home on ten days leave and will then report to an eastern Canada base. **EVERYONE MUST MAKE ALL-OUT VICTORY EFFORT, STUDENTS TOLD**

"Each one of us must dedicate our lives to an all-out effort to win this war and restore peace and sanity to the world," declared Captain the Rev. J. H. Shires, padre of the Queen's Mark Rangers regiment, to the students of Aurora high school in an impressive Reconciliation service in the school auditorium on Tuesday morning. "We can only achieve victory if we reconsecrate our lives and depend on divine aid to give our efforts the needed strength."

The service opened with the singing of "O God Our Help in Ages Past." Then the principal, J. H. Knowles, read the scripture lesson and Captain N. F. Johnson of the staff introduced Captain Shires.

"Every single one of us is involved in this conflict," he said. "You are thousands of miles away from the conflict today. A few weeks or months and war may be right in your midst," declared Capt. Shires. "Why have the Germans gone as far as they have? It is because they first of all have faith. They really and truly believe in their leader and his policy, false as its doctrines may be. They are united. They are enthusiastic in their devotion and secondly, having faith in their cause, they concentrate on the practical achievement not merely with lip service, but with sacrifice and service."

"How can we stop them?" asked Capt. Shires. "We can do so if we have a better faith and give just as keen if not keener concentration to our task. There is something bigger than concentration. It is reconsecration, in which you examine yourself thoroughly and place yourself self upon divine guidance. You will find if you examine yourself carefully you are not as good as you think and you are not putting forward the efforts you can really put forward. It is so easy, once you have concentrated for a while, to slack on the job, to slow down. When you start your task again it is that much harder."

"We hold this reconsecration week so we may start again, this time with God's aid. Remember, he is concerned with the same problems as you. Right must overcome wrong. The oppressed, who are your brothers and sisters, no matter where they live, must be freed. His power is inspiring to you. The fact that you are on the job doing your best is the only light in darkness to downtrodden Europe, the only thing that gives them courage to stand famine and degradation."

"If you really reconsecrate yourself to duty you will be refreshed and renewed for the biggest task that has yet confronted Christian mankind. There is more than a horizontal or worldly loyalty. There is a vertical loyalty, something higher and better than the other kind. We can only overcome the powers of evil by consecrated humanity giving an all-out effort. We can only build a new world if each and everyone of us does some task, no matter how small or large, willingly, and with his heart behind it."

Principal Knowles then read the official proclamation and Captain Shires read the pledge, the pupils repeating it. Then came the reconsecration prayer and benediction.

## DOWN THE CENTRE

Thanksgiving day looks as if it will put Aurora on the sporting map in a big way, as a fine list of entries from all over the province is promised for the Aurora Cycling club's 25-mile road race.

The course will run from Wellington and Victoria to the third century and then will reverse itself. This will go on for five laps.

Bob Bensville, ace rider of the local club, is doing some extensive training and will have the advantage, along with other local boys, of knowing the course thoroughly. On Sunday he cycled to Barrie and back, a mere jaunt of 70 odd miles by the time he got home. Jim Hanson, who as a junior rider, has been doing much riding this year, but he is now training for the event. The Foster brothers, Bill Heath and probably Mickey Smith will give the home club a few threats that should not be overlooked.

Markham Aces, the junior C champs, may pass out of the junior picture this year. The majority of the team are over the age limit and such boys as Bob Bangay, Baker, Bob Lewis, the two Harpers and others are right around the home base and reluctant to hang up their sticks. They hope to play intermediate this season. There is the nucleus of a junior team, too, but obviously as nearly every centre has learned from experience, you can't run two series in the same town. With the popular sports heroes of the day pulling for intermediate we are inclined to think that's where the Markies will be.

A nice intermediate group could be formed, too, with Sutton, Newmarket and probably Stouffville or Beaverton. Incidentally, we understand that Markham have a jackpot of nearly \$400 left over from last year, which, if it is so (and we get the dope from club sources), is a bit of a record for this district at least.

Owen Sound hockey is pretty much up in the air now. Jack Markie, former Syracuse pro, and Jim Keeling, brother of the redoubtable Butch Keeling, who handled the Junior Greys and other clubs last year, have said "no dice" for this season and the arena authorities are looking for others to carry on.

Stratford, another hockey stronghold, appears in a sad state as the arena has been placed on the auction block and it even appears there are no local buyers in sight and the equipment might be moved elsewhere. The arena originally cost \$110,000 in 1924. Charles Holmes is now located there and probably the former Redman chieftain, with hockey not far off, will be getting the urge to do something about the situation. It would be a smart move on the part of the Stratford moguls to get Holmes interested.

Markham fair, which opens shortly, has come up with a smart idea for opening day, which is always pretty drab. Markham high school are going to hold their annual field day that day and there will be events carded for district public schools. There is an outside possibility that Aurora high may be invited to send a picked team to meet the best of the Markham boys and girls. With the district track and field meet for secondary schools apparently to be shelved again, a series of dual meets between the two schools might well be arranged. A boys' meet with St. Andrew's could also probably be carded too.

Bobby Porter, the Balmy Beach backfielder who has handled the destinies of St. Andrew's College football teams with considerable success the past few years, is out of the picture at the big school this year. Charlie Sweeney, who is headman in athletics at the college, is taking over this field too. He has a tough job on his hands, with several of the old players gone, and matching wits with Lou Hayman at U. T. S. and the coaches at the other schools is no cinch. We shall watch the experiment with interest and, candidly, we, along with a lot of district sport fans, are eagerly awaiting a chance to see some rugger without journeying to Toronto.

Seven at Aurora high school may find Norm Johnson's boys back in a regular league competition, in place of exhibitions, which would be a good move. Last year Aurora passed up entry in the league, which includes Markham, Stouffville, Agincourt and Glendon. The two latter trips are a bit long, so if a meeting place central to both with a double point game could be worked out, it's likely the double blue will be regularly carded each week.

Jim Lowe, whom we mentioned last week, rates another bit this chapter, as he is playing smart football for Brantford Kiwanis, who are doing well in intermediate A playdowns. Lowe is parked in right field and also subs at third base. If pitchers are changed, Against Fort Erie he was one of the batting heroes in the three-game series, which saw the Brants survive.

Lefty Lemox, the hardball pitcher from Thornton and Stouffville, whom the older fans will remember and whom Shine Davis picked as the best to perform in the district, is on active service with the first battalion of the Grey-Sinclair force and is stationed in Nova Scotia, where he is now taking a mechanics course. His first name is Mervyn.

Army Armstrong, the well-known hockey referee, for the nineteenth time has been returned as singles champion of the Ottawa tennis club. Army, who has refereed many a game in this district, believes in keeping in shape all summer for the strenuous winter nights, which find him busy as a bee.

Scotty Muir expects shortly to make a definite decision as to where he'll be playing hockey this winter. Hughie, who is in great condition, and due to blossom this season as a top-ranking senior winger, has a bid from Bob Crosby at Timmins and another from Belleville, who are building up a senior B second tier. Mariboros want him, but the jobs offered aren't too good, while welcome is on the door mat at Niagara Falls and St. Catharines. The latter centre is likely to be the Newmarket lad's ultimate choice.

Jimmy Fowler, former Leaf, who dropped pro hockey rather than go

to New York Americans, is coaching the Saints and this club, along with Marlboros, will be tied up with the Toronto Leafs. As you already know, the Smythe clan are definitely interested in the former Aurora junior.

Undisturbed, the three-year-old prize of Harry Siddings, which Charlie Smith nearly brought home in the King's Plate, is no more. It was found that his heart was bad and it was only a question of time until the game horse's ticker stopped, and so, painlessly, with a tug on the heartstrings of both owner and jockey, the decision was made to end it all for the horse, which at one time bade fair to be one of Canadian racing's greatest.

No champion has been officially declared as yet for the Lake Simcoe league, despite a lapse of two weeks. As it stands, Albert has the cup and probably the best claim to it, too. Whether or not Keswick have officially protested has not been revealed, but, like countless others in North York, we had thought that by now a definite statement would have been issued by the league. Joe Tilley of Mount Albert, the president, McKnight of Pine Orchard, the vice-president, and Jim Denne of Sharon, the secretary-treasurer, have not yet met as to executive, nor have either team been asked to appear.

Even if no protest has been entered, a simple clear-cut statement would clear the air and leave a better feeling for next year. If a protest has been filed it should be dealt with at once. Unless the teams could play on a Saturday or Thanksgiving day, if a protest was sustained and a new game ordered, it obviously could not be played at night now. A situation a little different than two weeks ago, when the fiasco occurred.

Meanwhile, Umpire - in - Chief Charlie Cunningham, who gave the league good service, is being accused of first awarding the game to Mount Albert and then later saying the final decision as to whether or not it was a contest rested with the league executive.

Cunningham is too good a sportsman to be left out on the well-known limb, and so the league has no personal interest in the matter and didn't see the game, for the sake of the league, the executive, the players, the umpires and more than that, the sporting public, a decision is due. Last year there was a farcical ending to the York-Simcoe league, which dealt a big blow to the league with the fans. We hope that this won't be the case for a league which to date has been a credit to all connected with it.

Werner Bauer, one of the Bauer trio that helped wreck Aurora's hopes for a Junior B title a few years back with Waterloo Siskins, recently graduated in the R.C.A.F. The Waterloo juniors got the name Siskin from a type of fighter plane used in the last war. Now one of the lads who played under the Siskin banner will see action in a plane of another type.

Aurora Bowling Club have scheduled their annual fowl bowling tournament for Saturday, Sept. 20, at two o'clock of the clock and President Charles Malloy says the chickens will be bigger and better than ever. So if you're doing nothing Saturday and crave a little bit of exercise and the possibility of nibbling at a bit of white meat on Sunday, here's a good opportunity for one and all.

Larry Molyneux told the writer on Tuesday of this week that he had definitely decided to forsake professional hockey for good and would concentrate on his present job. Bill Cook, manager of the Cleveland Bronos, has been hanging up the telephone wires trying to get the big fellow to sign on the dotted line once again, but after nine years in the moneyed ranks Molyneux is satisfied to call it a day. During that time he has played with seven different clubs, New York Rangers, Springfield, Quebec, New Haven, Philadelphia, Providence and Cleveland. The majority of these years were served in the minors, where he was a top ranked.

Two seasons in full and countless others in temporary relief spots were spent with his parent club, the New York Rangers, but just when he was getting set along came injuries or else some youngster came along and for the time being blew red hot, overshadowing the steady, consistent Newmarket boy. Few players will retire with a cleaner record or better liked by their teammates. It was at Philadelphia, where he spent four or five seasons, that he really played his greatest hockey. For a defenceman he drew comparatively few penalties in a league where the fans liked their blood and thunder. Born in Sutton, Larry is now 29. If we remember correctly, a nice age at which to retire from the game. Once you get over the 30 mark it's harder each year to get into condition and the scars of battle don't heal as quickly. Biggest disappointment of his career, we believe, was his failure to play on a championship junior team, but he just about made it on two occasions as his home town were hanging at the portals of fame and fortune. Larry is taking golf pretty seriously these days and playing a lot over the Aurora course, where he is a member.

There are still new fields of leisurely sport for a young fellow to conquer, so who knows what may happen in a few years time.

## TELEPHONE DRIVERS SAVE GASOLINE

The Bell Telephone mechanized army drives its fleet of some 950 vehicles more than seven million miles a year. That is why we know something about safety and economical operating practices.

For instance, a saving of one mile per gallon in each vehicle, means an annual saving of 35,000 gallons of gasoline. Experience shows six simple ways to save gasoline, all tried, tested and practised by Bell Telephone drivers:

1. Start your automobile properly (never race the engine).
2. Change into second gear at 10, into high at 15 miles per hour.
3. Never drive faster than 40 miles an hour.
4. Drive at an even speed in open country.
5. Never leave motor idling.
6. Check motor every 5,000 miles.

Bell Telephone drivers have established one of the best records in Canada, for safe, efficient operation of their cars and trucks. J. Murray Lawlor, Manager.

although I once was."

"That's too bad," consoled the  
civilian. "Drink, I suppose."

James' church held their open-  
ing meeting of the season at the  
beautiful home of W. H. Wilmet,  
Linden Lea Farm, on Wednes-  
day, Sept. 10. There was a  
splendid attendance. The vice-  
president, Mrs. F. Hall, was in  
the chair and took charge of the  
gathering. Mrs. W. Knight pre-  
sented the W.A. with a quilt.

It was decided to pack it with  
other articles in a bale which  
will be sent to the west early in  
the fall. The meeting for this

Newmarket. Mrs. Patstone's  
paper dealt with the "Fruits of  
the spirit" as given by St. Paul  
in his Epistle to the Galatians.  
The speaker stressed the spiri-  
tual value of the work of the  
W.A.

At the close of the reading,  
votes of thanks were moved to  
both reader and hostess. A very  
dainty lunch was enjoyed by all  
present. The meeting closed  
with prayer.

McLean and Mrs. Anderson,  
leaders; Aurora by Mrs. Bond;
